Dear Sir/Madam

I have been an XM radio subscriber for two years. When they added their traffic and weather broadcasts it mExplains how satellite radio provides variety and quality that are not available elsewhere. As I pay for these services, it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that is hhelpful and useful in my life. Thank you.

Edward P. Redmond
